

Program Delivery Specialist

Please apply by email to jana@tullochconsulting.ca

The Aboriginal Firefighter Association of Canada (AFAC) was founded in 1991, and is a united body of regional Indigenous emergency and fire service organizations across Canada whose mandate is to represent the interests of local associations at the national level. The National Indigenous Fire Safety Council (NIFSC) has been formed under the guidance of AFAC to specifically drive the implementation of standardized fire services, and promote national standards in fire prevention, education, and suppression within Indigenous communities across Canada.

Currently, NIFSC is looking to fill the position of a Program Delivery Specialist within the province of Manitoba, who will be responsible for working with communities to deliver IFMS programs within Indigenous communities throughout the province. Please note that this position is remote and occasional overnight travel may be required.

Main responsibilities include:

- > Delivering IFMS programs to communities within Manitoba.
- > Training, mentoring, assisting, supporting community members in the delivery of IFMS programs.
- > Completion of assessment reports of programs being delivered.
- > Providing regular updates to the Director, Program Delivery including activity reports, schedule and management.
- > Conducting field tests of new/updated IFMS programs, providing feedback and/or Recommendations.
- > Providing subject matter expertise and/or advise on the development of IFMS programs.

Core required competencies:

- > Experience in achieving established objectives and targets.
- > Exceptional ability to establish and maintain productive working relationships with a diverse partner base.
- > Self-motivated, productive and efficient.
- > Excellent written and verbal communication skills.

Minimum Education, certification and/or experience in any of the following fire services / safety / community infrastructure areas, or a combination of any of the following:

- > Red seal in construction, plumbing, pipe fitting, etc.
- > Fire prevention educator training.
- > Inspection training/certification in construction, fire inspections, WETT inspection, etc.
- > Fire investigation training/certification and experience.
- > Infrastructure development training/certification in pre-plan examination, building codes & fire codes.
- > Education, training and certification in engineering services including building design, fire safety systems, sprinkler systems, etc.
- > Community safety and/or emergency management training including community fire safety • Experience providing technical, strategic, operational and governance development support to Chief and Councils, Tribal Councils and Indigenous political organizations.
- > Fire Service operations and training certification and experience.
- > At least five (5) years of demonstrated work experience in the core required competencies.
- > Preference for related bachelor's degree, research degree, fire officer designation or fire service seals and/or associated training.
